- Data Analytics Internship - Novitech
- UI/UX for Beginners - Great Learning
- Cloud Computing - NPTEL

PROJECT

Photography booking website:
- It allows users to easily browse photography services, view portfolios, and book sessions online. The platform includes features like user registration, appointment scheduling, service packages, and a contact form. It's designed to streamline the booking process for both photographers and clients, providing a user-friendly and visually appealing experience.

Exam registration system:
- The Exam Registration System is a user-friendly platform designed to streamline the exam enrollment process for students. It allows users to register for exams, view schedules, and receive confirmation, all in one place. The system reduces manual workload and improves accuracy and efficiency in managing exam-related tasks.
